

# Parental Acknowledgment

I have read and fully understand the Culminating Project parent/guardian letter. In addition, I have read the Culminating Project booklet, understand the related guidelines, expectations, and consequences, and have discussed the ethical manner in which this project is to be completed with my son/daughter.

I have read and understand the Mentor Agreement, and acknowledge that my son/daughter will be participating in this project that requires a mentor's help/guidance/suggestions during the project planning and completion. I understand that some projects/activities selected, and participation in some projects/activities may contain more potential risk for injury than others due to the nature of the project.

Acknowledging the Mentor Agreement, I understand my son's/daughter's time with the mentor will not be supervised by the Colville School District. Understanding this, I give my permission for my son/daughter to participate in his/her chosen project, to seek help/guidance/suggestions from their chosen mentor, and agree to indemnify and hold harmless the Colville School District for any consequences that may occur from participation in this chosen project/activity.
