

Flu Vaccine Locations for Uninsured Adults

The Department of Health is collaborating with Safeway Inc. and Albertsons Companies LLC to offer free influenza (flu) vaccination for uninsured adults over 18 years of age this flu season. This no-cost opportunity is offered to help prevent flu illness during the pandemic. Flu vaccine only protects against the flu virus and does not prevent, nor cause, any other respiratory infection including COVID-19 disease.

Twenty-three Albertsons and Safeway pharmacies across the state will offer flu vaccine free of charge now through June 2021, or while supplies last, to any adult who does not have health insurance. No proof of residency or immigration status will be required. All flu vaccine recipients will be pre-screened for COVID-19 symptoms and be expected to fill out standard consent forms.

The participating Albertsons and Safeway stores are listed below. Please contact the store closest to you directly for details, such as hours and vaccine availability.

Eastern Washington Participating Locations:

- Safeway Pharmacy (Store #0385)

Yakima, WA 98902
(509) 457-8869

Important safety precautions for Safeway Albertsons pharmacies:

Safeway Albertsons pharmacies have taken heightened precautions to help keep patients who visit the pharmacy safe and protected while they pick up their prescriptions, receive immunizations, or consult with a pharmacist:

- Pharmacy staff all wear masks, gloves, and have plexiglass dividers at the pharmacy counter
- Wellness rooms are regularly sanitized and cleaned in between patients
- All customers are required to wear masks in Safeway Albertsons stores
- Social distancing signs mark waiting areas, with hand sanitizer available at all touch points
- Flu vaccine recipients will be pre-screened for COVID-19 symptoms
